Notes:

Hi Raashid, your device is all set and ready to go! Thank you for letting us take care of your computer needs. We're always here if you need support in the future.

Terms:

Software Reinstallation Warranty:

- > This invoice includes a warranty for software reinstallation valid for up to 2 weeks.
- > From the date of service. During this period, the client is entitled to one-time free reinstallation of the same software in case of system errors, crashes, or unintentional removal, provided no hardware changes or user-induced issues are involved.

This warranty does not cover:

- > Installation of different software versions.
- > Issues caused by user modification or third-party interference.
- > Reinstallation due to system format, hardware changes, or virus/malware infection after service completion.
- > After the 2-week period, any reinstallation will be subject to standard service charges.

Notebook Service Warranty: A 2-week warranty is provided for notebook servicing from the date of completion. This covers issues directly related to the service performed, such as internal cleaning, fan servicing, or reassembly errors.

Thermal Paste Repaste: Thermal paste reapplication is done using high-quality materials to ensure optimal thermal performance. However, due to the variable nature of system use, no separate warranty is offered for the thermal paste unless it directly relates to improper application during service.

The warranty does not cover:

Issues arising from physical damage, liquid spills, electrical surges, or third-party tampering after service.

Software-related problems or unrelated hardware malfunctions.

Any attempts to open or modify the device after service void the warranty.

Post-warranty issues will be subject to standard diagnostic and service charges.
