Terms:

Notebook Service – Warranty

→ A 2-week warranty is provided for notebook servicing from the date of completion.

→ This warranty covers issues directly related to the service performed, such as:

* Internal cleaning faults

* Fan servicing defects

* Reassembly or workmanship errors

Thermal Paste Repaste – Warranty

→ Thermal paste reapplication is carried out using high-quality materials to ensure optimal thermal performance.

→ No separate warranty is provided for thermal paste longevity, as it depends on system use and environmental conditions.

A warranty claim is valid only if issues arise due to improper application during service.

No Display Issue (Signal) Repair – Warranty

→ A 2-week warranty is provided for no display (signal) repair services from the date of completion.

→ This warranty covers issues directly related to the repair, such as:

* System failing to display due to faulty soldering or workmanship defect

* Loose or improper connections during repair

* Display signal not transmitting because of service-related faults

Warranty Does Not Cover:

→ Physical damage, liquid spills, electrical surges, or third-party tampering after service

→ Software-related problems or hardware malfunctions unrelated to the performed service

→ Any attempts to open, alter, or modify the device after service (warranty void)

→ After the warranty period, any further support will be subject to our standard diagnostic and service charges.
